INVESTOR PRESENTATION

CEO, Stephen Snowdy, PhD/MBA  
April 2020

# Visioneering Technologies Inc.

ASX: VTI

This release is authorized by Stephen Snowdy, Managing Director & CEO, [ssnowdy@vtivision.com](mailto:ssnowdy@vtivision.com).

# LEGAL INFORMATION

For personal use only

The material contained in this document is a presentation of general information about the activities of Visioneering Technologies, Inc. (“VTI”, or “Visioneering”) current as at the date of this presentation. The information is provided in a summary form, does not purport to be complete and should not be relied upon as advice for investment purposes. This presentation does not take into account the investment objectives, financial position or needs of any particular investor. Independent advice should be sought before making any investment decision. VTI is not licensed to provide financial product advice in respect of its securities or any other financial products.

Certain statements in this presentation may constitute forward-looking statements or statements about future matters that are based on management’s current expectations and beliefs, including but not limited to, statements related to VTI’s financial performance, business strategy and goals, plans and prospects, potential benefits of its products and technology, product development, timing of international regulatory approvals, market size, commercial success, and future financial performance. These statements are subject to risks and uncertainties that are difficult to predict and are based on assumptions as to future events that may not prove accurate. Given the current uncertainties regarding the impact of the COVID-19 on the trading conditions impacting the Company, the financial markets and the health services world-wide, investors are cautioned not to place undue reliance on the current trading outlook. Actual results may differ materially from what is expressed in this presentation.

The information in this presentation is subject to change and unless required by law, VTI assumes no obligation to update this presentation or its contents for any matter arising or coming to VTI’s notice after the date of this presentation.

To the extent permitted by law, no responsibility for any loss arising in any way (including by way of negligence) from anyone acting or refraining to act as a result of this presentation or its contents is accepted by VTI or any of its officers, employees or agents.

The distribution of this presentation outside of Australia may be restricted by law and any such restrictions should be observed. This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, securities in Australia, the United States or any other jurisdiction.

# EXPERIENCED LEADERSHIP TEAM

**Dr. Stephen Snowdy**  
CEO and Executive Director

- Joined VTI as Chairman in May 2009 and has been Chief Executive Officer since June 2013
- 15 years of experience in life science venture investing and executive management
- Doctorate in Neurobiology and Master of Business Administration (Finance) from University of North Carolina. Bachelor of Science (Major in Chemistry) from University of Florida

**Brian Lane**  
CFO

- CFO with extensive track record of strong financial results.
- CFO of a private equity-backed company and CAO of multiple public companies
- Career foundation built on 11 years with EY
- Bachelor of Business Administration, Accounting from University of Georgia

**Tony Sommer, Jr.**  
Senior VP Sales and Marketing

- 20 years experience in sales and marketing management
- Previously Head of Sales for Bausch & Lomb's US Vision Care division
- Bachelor of Science from the United States Air Force Academy and Master of Business Administration from Oklahoma City University

## Share Price Performance (last 12 months)

## Shareholder types

# RECENT ANNOUNCEMENTS AND COVID-19 RESPONSE

**2 April 2020:** Announced reduction in headcount by 22 employees, bringing personnel from 42 to 20 employees, reduction in cash salaries companywide, pause on new product development and new product and international launches. Retained core sales team, and retained all personnel required to maintain world-wide regulatory compliance. Supply of product expected to remain uninterrupted, and company stands ready to accelerate when conditions permit. Company expecting sharp downturn in 2QFY20, followed by beginnings of recovery in 3QFY20.

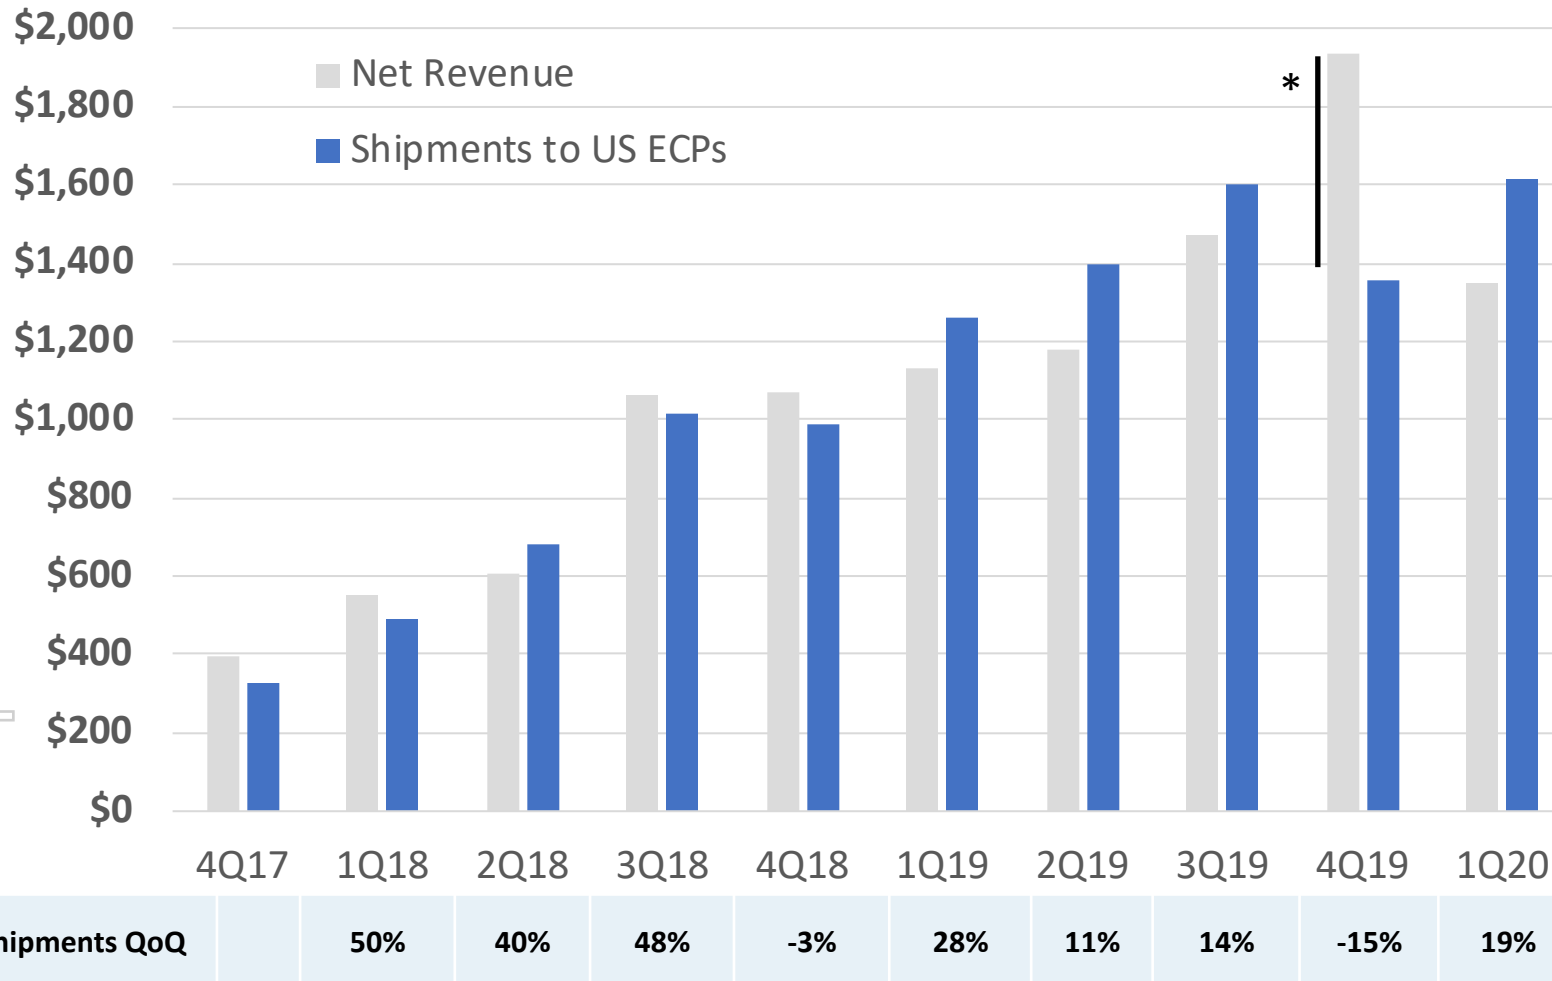

**20 April 2020:** Company reported 1QFY20 record US shipments (~A\$2.5 million), accounts, repeat customers, and gross margin, despite sales force being grounded for second half of March due to COVID-19.

**21 April 2020:** Announced receipt of ~A\$1.6M in non-dilutive loan funding from the US government. Debt is at least partially forgivable, 1% APR, payments deferred for 6 months, any remaining principal and interest paid over 24 months.

**29 April 2020:** Announced VTI has received commitments for A\$5M in new capital in Placement to institutional and sophisticated investors, and the launch of a A\$1M SPP, both at A\$0.014 per share. Each 2 shares purchased receive an option to purchase an additional share at A\$0.028. Placement funding expected 3 June 2020, subject to shareholder approval at AGM on 29 May 2020.

# STRONG GROWTH IN SHIPMENTS AND REVENUE

For personal use only

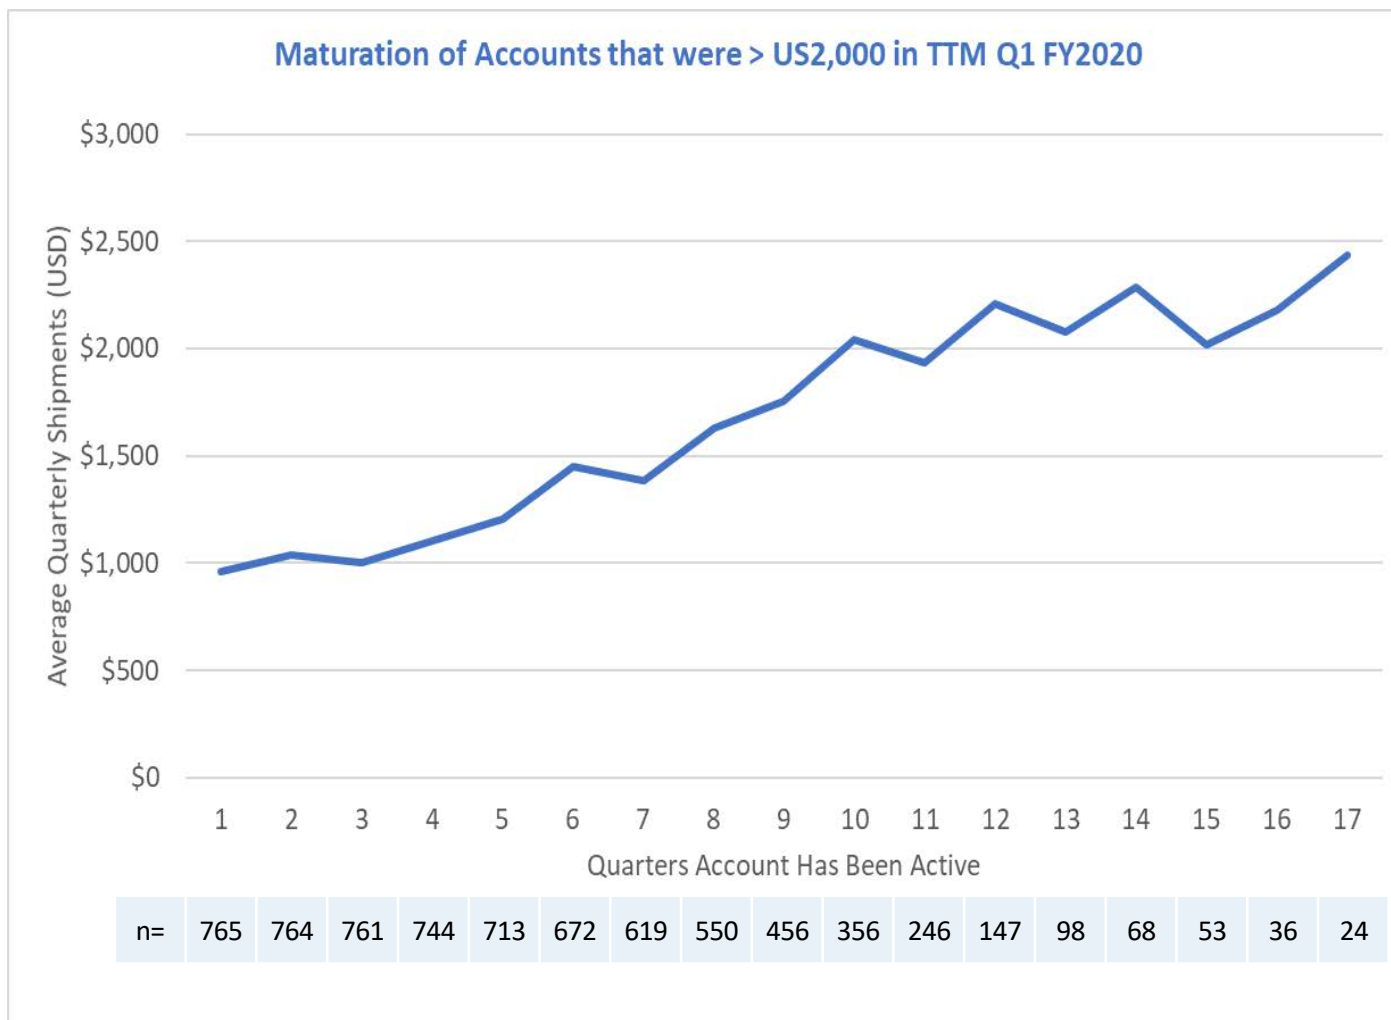

- 1Q20 Shipments to US ECPs increased 19% over 4Q19
- 2019 Shipments to US ECPs up 77% over 2018 to US\$5.6M
- 2019 Net Revenue up 74% over 2018 to \$5.7M
- 99% repeat customers in 1Q20, with 2,120 accounts ordering
- Shipments to US ECPs represents gross value to VTI of shipments going from distributors' inventories to US practitioners, and removes effect of inventory changes at distributor level
- Industry-wide December quarters typically lower than September quarters

\*4Q19 revenue included US\$0.5M initial stocking order from Menicon; this is unlikely to recur in the first half of 2020

# OUR ACCOUNTS ARE STICKY AND GROW OVER TIME

For personal use only

- The 765 accounts included in analysis were 36% of total Active accounts as of 31 March 2020, and represented 75% of total Shipments for the TTM period ended 31 March 2020
- “n=” represents the number of accounts included in calculation of average Shipments for quarter
- Example: Accounts that were active for 8 quarters had average shipments of US\$1,600 in their 8th quarter; Accounts that were active for 17 quarters had shipments of US\$2,400 in their 17th quarter

# WHAT WE DO: OUR REVOLUTIONARY CONTACT LENSES

VTI sells patented revolutionary daily disposable contact lenses that address two underserved populations:

1

## Paediatric Myopia and Myopia Progression Control – \$13-17bn global TAM

- Affects up to one-third of children in US and 80-90% of children in many Asian nations, 2 billion people worldwide
- Correlates to elevated life-time risk for blindness and other debilitating ocular diseases
- Risk for ocular diseases correlates with level of nearsightedness
- No widely adopted solutions are available
- US\$2bn addressable market in US, ~\$10bn China, plus other large OUS markets

2

## Presbyopia – \$8bn global TAM

- Loss of near vision in people over the age of 40-45
- Affects nearly everyone in this age group in every part of the world
- Progressive disease; worsens with age
- Current contact lenses for presbyopia compromise either near or distance vision and are time-consuming for practitioners to optimize
- US\$3bn addressable market in US; increases to \$8bn for current target markets excluding China, which is \$15bn using same metrics as US

Glasses or most contacts only correct the nearsighted vision, but have little to no impact on slowing the progression of myopia. Some believe that simple correction of vision may even accelerate the progression nearsightedness.

**Myopia progression is caused by the abnormal lengthening of the eye, and generally remains untreated owing to the treatment options available:**

## Atropine

Drug formulated as eyedrops or ointment for the eye.

### Drawbacks

- Uncertain efficacy
- Significant side effects
- Rebound effect
- Temporary use only
- Difficult to obtain
- PDL: “Should not be supplied”

## Ortho-K

Hard contact lenses worn at night to reshape the front surface of the eye.

### Drawbacks

- Expensive
- Requires daily lens sanitization
- Loss of vision correction through day
- Limited optical powers
- High practitioner time and training
- Off-label for myopia progression control

## Soft contact lenses

High interest in soft contact lenses for myopia progression control.

### Drawbacks

- Several past and present attempts
- None have achieved widespread adoption
- Highly variable published data

# DATA SUPPORTS VISIONEERING'S NATURALVUE MF ABILITY TO SLOW OR STOP MYOPIA PROGRESSION

For personal use only

At an international meeting of optometrists in January 2019, the Global Specialty Lens Symposium, practitioners presented data on children wearing NaturalVue MF.

Their pooled data of 141 children showed:

- 90% average decrease in rate of myopia progression
- 72% of children showed complete stop of refractive progression
- 55% slowing of axial elongation

## Annualized myopia progression in children wearing NaturalVue MF

# VTI AT FOREFRONT OF AMPLIFIED INDUSTRY INTEREST IN MYOPIA

## Alcon

Recently IPO'd/spun out of Novartis and called out myopia control as an area of market expansion opportunity for the company (no products available or in publicly listed clinical trials)

## J&J Vision Care

Initiated \$25M research collaboration with Singapore for myopia control treatments (no products available or in publicly listed clinical trials)

## Coopervision

Announced intention to launch MiSight in the US. MiSight is a myopia control contact lens Coopervision has had available outside the US for many years; not widely used

## Essilor

World's largest eye care company, formed task force for myopia control, Myopia In Action

## Global Myopia Awareness Coalition (GMAC)

- This is a coalition of the largest eye care companies to join forces in creating awareness in myopia
- VTI is a founding member and sits alongside the world's largest eye care companies

## WORLD COUNCIL OF OPTOMETRY

- The organization, which operates as an advisory board under the World Council of Optometry, has 11 corporations committed to this effort
- These include Alcon, CooperVision, Essilor, Euclid Systems Corporation, Hoya, Johnson & Johnson, Menicon, Nevakar, Oculus, SightGlass Vision, and Visioneering Technologies

# STRONG RECENT INTEREST IN MYOPIA THERAPIES

Menicon announced new myopia control brand in May 2019 in Europe, Menicon Bloom. First product is an orthokeratology lens. Added NaturalVue Multifocal to complete the offering.

No known investigational products by Bausch Health, Alcon, or J&J Visioncare.

Sightglass-Startup company in trials with a spectacle lens design.

Hoya and Hong Kong Polytech-Developed a spectacle lens called DIMS. Seems to be on sale in Hong Kong. Status is not clear outside Hong Kong.

Eyenovia-Phase III trial in US for micro-dosed atropine (children must still correct vision with contacts/glasses).

Nevakar/Syneos-Clinical trial of unknown compound.

For personal use only

# NATURALVUE CONTACT LENSES ALSO HAVE BENEFITS FOR OVER-45 ADULTS

For personal use only

## Superior clinical performance

- The NaturalVue MF contact lens solves the near vision problem
- Simultaneously provides superior near, intermediate and distance vision.

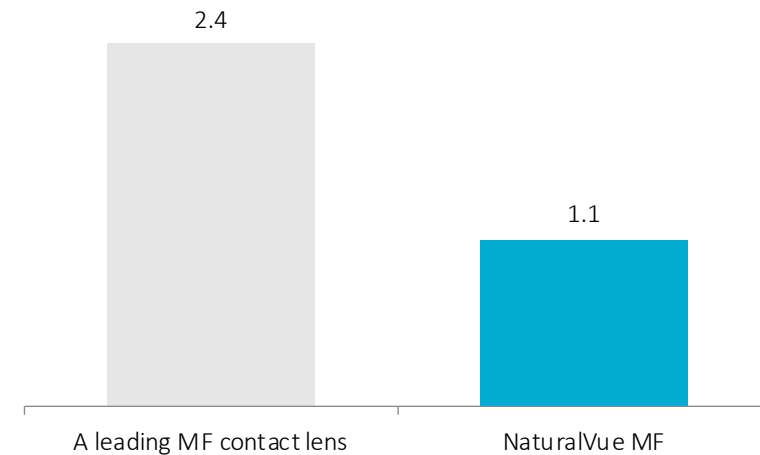

## Much easier to fit

- Currently marketed MF contact lenses require multiple visits (up to 6) to achieve a successful fit a majority of the time<sup>1</sup>
- In Visioneering's clinical trial, NaturalVue was successfully fit in an average of 1.1 visits vs 2.4 for a leading MF competitor<sup>2</sup>

PMET Trial – near, intermediate & distance vision (n=59)

Average fitting visits – NaturalVue MF vs Competitor MF

1. As reported by ECPs when fitting presbyopic patients  
2. As reported by the manufacturer of the contact lens

# RECENT NATIONAL MEDIA COVERAGE

For personal use only

## Today Show Australia | January 2019

Interview with Optometrist, Dr Jim Kokkinakis, discussing screen time being a major contributor to shortsightedness, which causes conditions such as myopia to significantly develop.

## 10 News First | February 2019

News presenter Sandra Sully introduces the innovation behind VTI's disposable contact lenses for children with shortsightedness.

## ABC News | August 2019

Interview with Optometrist Oliver Woo about the myopia epidemic, including how advances in technology can play a role in the solution.

# STRATEGIC PARTNERSHIP SIGNED WITH MENICON LTD

Menicon Co., Ltd. is **Japan's first and largest contact lens manufacturer** founded by Mr Kyoichi Tanaka in 1951, and is now represented in over 80 countries with US\$700M annualized revenue

Menicon **announced new myopia control brand** in May 2019, Menicon Bloom

**VTI will private label NVMF** for Menicon with Bloom branding for Europe market (<https://menicon.com.au/news/590/>)

**Expands footprint** of NaturalVue MF with large contact lens company

Structure of deal allows VTI to **maintain strategic flexibility**

For personal use only

## Regulatory clearances

VTI has gained regulatory clearances or registrations in Europe, Hong Kong, New Zealand, Australia & Singapore

Canada clearance received  
12 March 2020

## Sales and distribution partnerships

NaturalVue MF sells outside the US via partnerships

Europe private label signed late 2019, sales expected to ramp in 2020

VTI launched Hong Kong and Singapore without partnerships, but partnerships needed to maximise penetration. Those partnerships expected in 2020

## Additional opportunities available

China: Largest market opportunity in the world for paediatric myopia, but likely to require local trial

Japan: Attractive market for myopia, likely to require local trial

Korea, Taiwan: Smaller, but attractive markets, regulatory requirements are unexplored

# WORLDWIDE MARKETS FOR PEDIATRIC MYOPIA CONTROL

For personal use only

| Geography       | Addressable Market (US\$) | Entry Date | Clearance |
|-----------------|---------------------------|------------|-----------|
| United States   | \$2-4bn                   | 1Q 2016    | Myopia    |
| Australia/NZ    | \$0.3bn                   | 4Q 2018    | MPC       |
| Nordics         | \$0.3bn                   | 4Q 2018    | MPC       |
| United Kingdom  | \$0.6bn                   | 1Q 2019    | MPC       |
| Canada          | \$0.4bn                   | 1H 2020    | MPC       |
| Hong Kong       | \$0.1bn                   | 4Q 2019    | MPC       |
| China           | \$7-9bn                   | 2023 Est   | MPC       |
| Singapore/Korea | \$0.7bn                   | 2020       | MPC       |
| Japan           | \$1.4bn                   | 2024 Est   | MPC       |

Total Worldwide: US\$13bn-\$17bn

MPC = Myopia Progression Control

## Current Environment

• Service our existing US-based accounts and wearers with core sales team, and supporting users in Europe, HK, Singapore, ANZ

• Continue preparations for international expansion (scaled-down and slowed)

-Develop partners for sales and distribution in SE Asia and HK

-Prepare for Canada launch

-Continue preparations for Menicon Europe launch

• Continue preparations for new products (scaled down and slowed)

Multifocal toric

Next-gen multifocal

• Wrap up small clinical projects

Larger projects will be delayed

• Maintain readiness to hit the throttle when macro-conditions improve

## As conditions improve

• Prudently pursue growth in the US

• Launch Canada and launch partnerships in Singapore and HK

• Launch multifocal toric and conduct clinical projects on additional products

• Explore addition of other companies' products into the VTI sales bag

## NaturalVue® Multifocal Toric Daily Disposable Soft Contact Lenses

- Correction of astigmatism, distance vision and presbyopia
- Daily disposable Multifocal Toric is revolutionary in the eye care industry, enabled by our technology
- No additional regulatory clearance required in US
- Launch in US 1H2020

## NaturalVue® Toric Daily Disposable Soft Contact Lenses

- Correction of astigmatism and distance vision
- No additional regulatory clearance required in US
- Timing of launch not determined

For personal use only

NaturalVue® Daily Disposable Multi-Focal Soft Contact Lenses
